

French Wood Experts Society visit to Tartu, 11.05.2017

Estonian companies of wood industry looking for opportunities on French market are invited to network with French wood experts who are visiting Estonia in order to explore the Estonian wood sector.

EAS and Estonian Forestry and Woodworking Industries Association will give a quick overview of Estonian economy to the French group and present them forestry and wood sector in Estonia. The formal presentations will be followed by a networking session:

SPARK Demo, Narva mnt. 3, Tartu

- 8:30 **Welcoming coffee and snacks** at SPARK Demo (<http://sparkdemo.ee/>)
- 8:45 **Business environment in Estonia** (Kristiina Kalda, Enterprise Estonia Export Adviser in France)
- 9:00 **Forestry and Woodworking industries in Estonia** (Liisi Liivlaid, Estonian Forest and Timber Association <http://www.estoniantimber.ee/>)
- 9:45 **Networking and coffee break** (approx. 1 hour)

French Wood Experts (<http://www.foret-bois.com>) are mostly advisors working with the forest owners, the timber industry, the timber trade and the European Norm committees. Acquainted with standards and codes of practice, they are in permanent contact with practically everybody in the wood industries and the trade in France. They often advise French and foreign companies on how to comply with the French market.

The group visiting Estonia consists of 20 English speaking experts, each of them having his own speciality. The main specialities covered are : wood-working, flooring, furniture, timber processing, cladding and joinery, wood preservatives, import of building components.
