KidsLikeUs

The project aims to support children affected by migration crises and other mental health challenges by inspiring volunteers, educators, public authorities, and NGOs to create welcoming and sensory-friendly environments that bring in nature, address all senses, and improve mental and physical well-being.

This #MadeWithInterreg project helps drive the transition to a green and resilient Baltic Sea region.

Organisations from the following countries cooperate together to make that happen:

Estonia, Finland, Latvia, Lithuania, Norway, Poland, and Sweden.
